## Water Heater Plan

Annual tune-up of water heater including inspection and cleaning of pilot orifice, inspection of wiring, safety check and testing of ignition and safety controls. Covers replacement propane burner parts and controls.

## Fireplace Maintenance Plan

- Vacuum logs & unit
- Inspect logs for cracks and/or broken logs
- Clean and inspect burner, orifice, thermocouple and thermopile
- Clean & inspect pilot orifice for proper flame pattern
- Check vent termination for blockage
- Clean glass
- Supply & install any decorative rock wool for maximum visual appearance
- Replace batteries in remote and receiver
- Safety/leak check (whole system)
- Test ignition and safety controls

Covers: labor (one hour), batteries, (2) co2 charges, embers and pilot assembly (up to \$25 value)

*NOTE: Fireplace Plans cover only one (1) annual maintenance. Any additional service is billable time and materials.*

## TERMS & CONDITIONS

- The service plan is only available to persons who purchase their entire year's fuel supply from the Company by way of automatic delivery. In the event that the Customer purchases propane from another propane company, stops doing business with Dutch Propane, or if anyone other than Dutch Propane technicians render service to the burner or heating equipment, Dutch Propane will automatically terminate the service plan.
- Dutch Propane reserves the right to terminate the service plan when payments for propane, service or service plan are not made. Payment is due upon receipt of invoice.
- The service plan will automatically self-renew from year to year at the rate in effect at the time of said renewal unless either party gives 30 days prior written notice to the other party. The service plan does not cover the cost of labor or materials for damage when it is caused by electric service interruption, fire, flood, acts of God, water damage, tank leakage, customer negligence, or circumstances beyond the control of the Company. This service plan does not cover replacement of complete boiler, furnace or water heater, frozen lines/pipes, or any other parts not mentioned in the agreement.
- Dutch Propane, LLC reserves the right to reject any service agreement. Service agreements become effective only after our inspection and approval of customer's heating system by a licensed technician. The company is not responsible for, nor will the Company refund, any expenses that may have been incurred prior to the commencement of the service plan. Any pre-existing condition(s) must be remedied prior to commencement of coverage. The service plan is nonrefundable. Notwithstanding the above, the service plan is transferable to a new property owner in the event of a sale of the property.
- All regular service will be provided Monday-Friday, 8am - 4pm. If non-emergency service calls are made outside regular business hours, the customer will be charged for the call. The Company is equipped to provide emergency service promptly. Emergency service is defined as: no heat, gas leaks, major water leak (boilers only). Telephone requests for service will be accepted 24 hours a day, and emergency service will be rendered with reasonable promptness.
- The service plan does not cover the cost of removing and replacing any materials relating to concealed pipes, ducts, propane lines, storage tanks or concealed heating systems.
- The service plan does not cover obsolete heating units, regular plumbing work, including but not limited to hot and cold water piping. The Company reserves the right to exclude from coverage any heating system which, in the Company's discretion, should be replaced and is not commonly used.
- The Gold and Silver Heating service plan is available to customers who purchase a minimum of 500 gallons of propane per season. No secondary heating systems are allowed. In the event that the Customer installs a wood stove, coal stove or portable heater, the Company reserves the right to terminate the service plan. Dutch Propane reserves the right to repair or replace any part which, in the Company's sole discretion, the Company believes is necessary. The Company may substitute parts for others which are obsolete, unavailable or no longer manufactured.
- The service plan includes the cost of all labor to repair or replace parts as set forth in the respective plan. However, this plan does not cover the cost of labor due to Customer error, Customer's failure to reset the circuit breaker, replace fuse, set thermostat properly, turn on emergency switch, turned off gas valve, failure to maintain proper water level in boiler and no fuel (unless on automatic delivery and account is current).

**WE ALSO  
SERVICE POOL  
HEATERS!**
